Next, you may express your wishes regarding your service. The recruit letter cover sheet involving the Preliminary Questionnaire provides instructions for accessing information about your brigade-level unit's education and training provision. The final training selections and decision on your service time (165/255/347 days) are made at your brigade-level unit at the end of the basic training period by your supervisors in cooperation with you on the basis of your motivation and the skills you have demonstrated. A wish you have expressed will not stand in your way if you want to apply for leadership training or special tasks even if your service has already started. It will not guarantee, either, that you will be signed up for the training you have asked for (all tasks will be filled - some are more popular than others).
